# Auto Callable Contingent Interest Notes Linked to the Least Performing of the Common Stock of Tesla, Inc., the Common Stock of Amazon.com, Inc. and the Class A Common Stock of Meta Platforms, Inc. due November 28, 2025

## Fully and Unconditionally Guaranteed by JPMorgan Chase & Co.

The section entitled “Comparable Yield and Projected Payment Schedule” in the pricing supplement dated November 22, 2022, related to the notes referred to above (the “pricing supplement”), is amended, restated and superseded in its entirety by the following:

### Comparable Yield and Projected Payment Schedule

We have determined that the “comparable yield” is an annual rate of 4.98% compounded quarterly. Based on our determination of the comparable yield, the “projected payment schedule” per \$1,000 principal amount note consists of the following payments:

Payment Dates	Projected Payment Amounts
February 27, 2023	\$18.45
May 25, 2023	\$15.65
August 25, 2023	\$14.20
November 28, 2023	\$13.19
February 27, 2024	\$12.41
May 28, 2024	\$11.63
August 27, 2024	\$11.18
November 27, 2024	\$10.62
February 27, 2025	\$10.17
May 28, 2025	\$9.73
August 27, 2025	\$9.28
November 28, 2025	\$1,008.94

In addition, assuming a quarterly accrual period, the following table states the amount of OID that will accrue with respect to the notes during each calendar period, based upon our determination of the comparable yield and the projected payment schedule. The table does not account for adjustments to reflect the difference between the actual and projected amount of any payment you receive during each year.

Calendar Period	Accrued OID During Calendar Period (Per \$1,000 Principal Amount Note)	Total Accrued OID from Original Issue Date (Per \$1,000 Principal Amount Note) as of End of Calendar Period
Original Issue Date through December 31, 2022	\$4.29	\$4.29
January 1, 2023 through December 31, 2023	\$49.01	\$53.30
January 1, 2024 through December 31, 2024	\$48.98	\$102.27
January 1, 2025 through November 28, 2025	\$44.83	\$147.11

The comparable yield and projected payment schedule are determined solely to calculate the amount on which you will be taxed with respect to the notes in each year and are neither a prediction nor a guarantee of what the actual yield or timing of the payment or payments will be. The amounts you actually receive each year, including at maturity or earlier sale or exchange of your notes, will affect your income for that year, as described under “Treatment as Contingent Payment Debt Instruments” in the pricing supplement.
