CUSIP: 48132T6Z4

Estimated Value: The estimated value of the notes, when the terms of the notes are set, will not be less than $870.00 per $1,000 principal amount note. For information about the estimated value of the notes, which likely will be lower than the price you paid for the notes, please see the hyperlink above.

**Automatic Call**

If the closing price of one share of each Reference Stock on any Autocall Review Date is greater than or equal to its Initial Value, the notes will be automatically called for a cash payment, for each $1,000 principal amount note, equal to (a) $1,000 plus (b) the Contingent Interest Payment applicable to the Interest Review Date corresponding to that Autocall Review Date, payable on the applicable Call Settlement Date. No further payments will be made on the notes.

**Payment at Maturity**

If the notes have not been automatically called and (i) the Final Value of any Reference Stock is greater than or equal to its Trigger Value or (ii) the Final Value of each Reference Stock is greater than or equal to its Initial Value or (iii) the Final Value of each Reference Stock is greater than or equal to its Initial Value, you will receive a cash payment at maturity, for each $1,000 principal amount note, equal to (a) $1,000 plus (b) the Contingent Interest Payment, if any, applicable to the final Review Date.

If the notes have not been automatically called and (i) the Final Value of each Reference Stock is less than its Initial Value and (ii) the Final Value of any Reference Stock is less than its Trigger Value, your payment at maturity per $1,000 principal amount note will be calculated as follows:

\[ \text{Payment} = 1000 + (1000 \times \text{Least Performing Stock Return}) \]

Capitalized terms used but not defined herein shall have the meanings set forth in the preliminary pricing supplement.

Any payment on the notes is subject to the credit risk of JPMorgan Chase Financial Company LLC, as issuer of the notes, and the credit risk of JPMorgan Chase & Co., as guarantor of the notes.
Selected Risks

- Your investment in the notes may result in a loss. The notes do not guarantee any return of principal.
- The notes do not guarantee the payment of interest and may not pay interest at all.
- Any payment on the notes is subject to the credit risks of JPMorgan Chase Financial Company LLC and JPMorgan Chase & Co. Therefore the value of the notes prior to maturity will be subject to changes in the market's view of the creditworthiness of JPMorgan Chase Financial Company LLC or JPMorgan Chase & Co.
- The appreciation potential of the notes is limited to the sum of any Contingent Interest Payments that may be paid over the term of the notes.
- You are exposed to the risk of decline in the price of one share of each Reference Stock.
- Your payment at maturity will be determined primarily by the Least Performing Reference Stock.
- The benefit provided by the Trigger Value may terminate on the final Review Date.
- The automatic call feature may force a potential early exit.
- No dividend payments or voting rights.
- The anti-dilution protection for each Reference Stock is limited and may be discretionary.
- As a finance subsidiary, JPMorgan Chase Financial Company LLC has no independent operations and has limited assets.

Selected Risks (continued)

- The estimated value of the notes will be lower than the original issue price (price to public) of the notes.
- The estimated value of the notes is determined by reference to an internal funding rate.
- The estimated value of the notes is not guaranteed and may differ from other estimates.
- The value of the notes, which may be reflected in customer account statements, may be higher than the current estimated value of the notes for a limited time period.
- Lack of liquidity: J.P. Morgan Securities LLC (who we refer to as JMS) intends to offer to purchase the notes in the secondary market but is not required to do so. The price, if any, at which JMS will be willing to purchase notes from you in the secondary market, if at all, may result in a significant loss of your principal.
- Potential conflicts: We and our affiliates play a variety of roles in connection with the issuance of notes, including acting as calculation agent and hedging our obligations under the notes, and making the assumptions used to determine the pricing of the notes and the estimated value of the notes when the terms of the notes are set. It is possible that such hedging or other trading activities of J.P. Morgan or its affiliates could result in substantial returns for J.P. Morgan and its affiliates while the value of the notes decline.
- The tax consequences of the notes may be uncertain. You should consult your tax adviser regarding the U.S. federal income tax consequences of an investment in the notes.
