JPMorgan Auto Callable Contingent Interest Notes linked to the common stock of Ebay Inc. due April 23, 2014

Reference Stock	The common stock, par value \$0.001 per share, of Ebay Inc. (EBAY)			
Contingent Interest Payments:	If the notes have not been previously called and the closing price of one share of the Reference Stock on any Review Date is greater than or equal to the Interest Barrier, you will receive on the applicable Interest Payment Date for each \$1,000 principal amount note a Contingent Interest Payment equal to \$32.75 (equivalent to an interest rate of 13.10% per annum, payable at a rate of 3.275% per quarter).			
	If the closing price of one share of the Reference Stock on any Review Date is less than the Interest Barrier, no Contingent Interest Payment will be made with respect to that Review Date.			
Interest Barrier / Trigger Level:	80% of the Initial Stock Price (subject to adjustments)			
Interest Rate:	13.10% per annum, payable at a rate of 3.275% per quarter, if applicable			
Automatic Call:	If the closing price of one share of the Reference Stock on any Review Date (other than the final Review Date) greater than or equal to the Initial Stock Price, the notes will be automatically called for a cash payment, for each \$1,000 principal amount note, equal to (a) \$1,000 plus (b) the Contingent interest Payment applicable to that Review Date, payable on the applicable Call Settlement Date.			
Payment at Maturity:	If the notes have not been previously called and the Final Stock Price is greater than or equal to the Trigger Level, you will receive a cash payment at maturity, for each \$1,000 principal amount note, equal to (a) \$1,000 plus (b) the Contingent interest Payment applicable to the final Review Date. If the notes have not been previously called and the Final Stock Price is less than the Trigger Level, at maturity you will iose 3% of the principal amount of your notes for every 1% that the Final Stock Price is less than the Initial Stock Price. Under these circumstances, your payment at maturity per \$1,000 principal amount note will be calculated as follows: \$1,000 + (\$1,000 × Stock Return).			
	If the notes have not been automatically called and the Final Stock Price is less than the Trigger Level, you will lose more than 20% of your initial investment and may lose all of your initial investment at maturity.			
Review Dates:	July 18, 2013 (first Review Date), October 17, 2013 (second Review Date), January 16, 2014 (third Review Date), April 17, 2014 (final Review Date)			

etical Return on a Note First 3 Review Dates Compare the closing price of one share of the Reference Stock to the Initial Stock Price and the Interest Barrier until the final review date or any automatic call. notes will be automatically called and you will receive (i) the principal amount *plus* (ii) the Contingent Interest Payment with respect to the related review date No Automatic Call

What Are the Payments on the Notes, Assuming a Range of Performances for the Reference Stock?

The following table illustrates payments on the notes, assuming a range of performance for the Reference Stock on a given Review Date. The hypothetical payments set forth below assume an initial Stock Price of \$55.00, an Interest Barrier and a Trigger Level of \$54.00 (equal to 80% of the hypothetical Initial Stock Price) and reflect the Interest Rate of 13.10% per annum (payable at a rate of 13.25%) per quarter). The hypothetical Lotal returns set forth below are for illustrate purposes only and may not be the actual total returns applicable to a purchaser of the notes. The numbers appearing in the following table and examples have been rounded for ease of analysis.

Amy payment on the notes is subject to the credit risk of IPMorgan Chase & Co. The notes do not guarantee the payment of interest and may not pay interest at all. Risk Considerations

ive. Please see the accompanying term sheet and product supplement for a more detailed disc

YOUR INVESTMENT IN THE NOTES MAY RESULT IN A LOSS — The notes do not guarantee any return of principal. If the notes are not automatically called, we will pay you your principal back at maturity only if the Final Stock Price is greater than or equal to the Trigger Level, or the Trigger

THE NOTES DO NOT GUARANTEE THE PAYMENT OF INTEREST AND MAY NOT PAY ANY INTEREST AT ALL.—The terms of the noise of conventional debt securities in that, among other things, whether we pay interest is linked to the performance of the Reference Stock. We will make a Contingent Interest Payment with respect to a Review Date only if the closing price of one share of the Reference Stock on that Review Date is greater than or equal to the interest Barrier. If the closing price of one share of the Reference Stock in that, and the Contingent interest Payment will be made with respect to a fast Review Date, and the Contingent interest Payment will be made with respect to a fast Review Date, and the Contingent interest Payment will be made with respect to that Review Date, and the Contingent interest Payment that would otherwise have been payable with respect to that Review Date will not be accrued and subsequently paid. Accordingly, if the closing price of one share of the Reference Stock on each Review Date is less than the interest Barrier, to you will not receive any interest accurate.

CREDIT RISK OF JPMORGAN CHASE & CO. — The notes are subject to the credit risk of JPMorgan Chase & Co. and our credit ratings and credit spreads may adversely affect the market value of the notes. Investors are dependent on JP Chase & Co.'s soilly to pay all amounts due on the notes, and therefore investors are subject to our credit risk and to changes in the market view of our credit ordininess. Any decline in our credit ratings or increase in the credit spreads chair the market for taking our credit risk is likely to adversely affect the value of the notes. If we were to default on our payment obligations, you may not receive any amounts owed to you under the notes and you could lose your entire investment. rease in the credit spreads charged by Recent events affer the accompany ents affecting us have led to heightlened regulatory sorutiny, may lead to additional regulatory or legal proceedings against us and may adversely affect our credit ratings and credit spreads and, as a result, the market value of the notes. In sarying termsheet, see "Executive Overview — CIO Synthetic Credit Portion (post), Proceedings and Titlem 4. Controls and Procedures" in our Quartery Report on Form 10-Q for the quarter ended 30, 2012 and "Part II. Other Information — Item 16. "Risk Factors" in Our Quartery Report on Form 10-Q for the quarter ended 4.0 and 10 and 1

THE APPRECIATION POTENTIAL OF THE NOTES IS LIMITED, AND YOU WILL NOT PARTICIPATE IN ANY APPRECIATION IN THE PRICE OF THE REFERENCE STOCK.—The appreciation potential of the notes is limited to the sum of any contingent interest. Payments that may be paid over the term of the notes, regardless of any appreciation in the price of the Reference Stock, which may be significant. You will not participate in any appreciation in the price of the Reference Stock and a contingent the term of the notes in a significant. You will not participate in any appreciation in the price of the Reference Stock and the notes.

POTENTIAL CONFLICTS — We and our affiliates play a variety of roles in connection with the issuance of the notes, including acting as calculation agent and hedging our obligations under the notes. In performing these duties, our economic interests and the economic interests to the actives to yours and could adversely affect any payment on the notes and the value of the notes. It is possible that hedging or trading activities of ours or our affiliates out our feetile that while the value of the notes. It is possible that hedging or trading a could requir in substantial returns for us or our affiliates out our af

We and/or our affiliates may also currently or from time to time engage in business with the issuer of the Reference Stock including extending loans to, or making equity investments in, the issuer of the Reference Stock or providing advisory services to the issuer of the Reference Stock. In addition, one or more of our affiliates may publish research reports or otherwise express opinions with respect to the issuer of the Reference Stock, and these reports may or may not recommend that investors buy or hold the Reference Stock. As a prospective purchaser of the notes, you should undertake an independent investigation of the Reference Stock issuer that in your judgment is appropriate to make an informed decision with respect to an investment in the notes.

THE BENEFIT PROVIDED BY THE TRIGGER LEVEL MAY TERMINATE ON THE FINAL REVIEW DATE—If the Final Stock Price is less than the Trigger Level, the benefit provided by the Trigger Level will terminate and you will be fully expo to any depreciation in the closing price of one share of the Reference Stock. Because the Final Stock Price will be determined based on the closing price on a single day near the end of the Item of the notes, the price of the Reference Stock at the maturity date or at other times during the term of the notes could be greater than or equal to the Trigger Level. This difference could be particularly large if there is a significant decrease in the price of the Reference Stock during the latter portion the term of the notes or if there is significant volatility in the price of the Reference Stock during the latter portion

THE AUTOMATIC CALL FEATURE MAY FORCE A POTENTIAL EARLY EXIT— If the notes are automatically called, the amount of Contingent Interest Payments made on the notes may be less than the amount of Contingent interest Payment that would have been payable if the notes were held to maturity, and, for each \$1,000 principal amount note, you will receive \$1,000 plus the Contingent Interest Payment applicable to the relevant Review Date.

REINVESTMENT RISK — If your notes are automatically called, the term of the notes may be reduced to as short as three months and you will not receive any Contingent Interest Payments after the applicable Call Settlement Date. There is no guarantee that you would be able to reinvest the proceeds from an investment in the notes are a comparable return and/or with a comparable interest rate for a similar level of risk in the event the notes are automatically called prior to the maturity date. CERTAIN BUILT-IN COSTS ARE LIKELY TO AFFECT ADVERSELY THE VALUE OF THE NOTES PRIOR TO MATURITY—While any payment on the notes described in the accompanying term sheet is based on the full principal amount of your notes, the original issue price of the notes incurred the notes incurred as which I should not the notes. As a result, and as a general matter, the price, if any, at which I should not principal amount of your notes to make the principal payments and the principal amount of your notes incurred the principal and the principal amount of your notes in the principal and the principal and the principal amount of your notes in the principal and the principal amount of your notes in the principal and the principal amount of your notes in the principal and the principal and the principal and the principal amount of your notes in the principal and the principal and the principal and the principal and the principal amount of your notes in the principal and the principal amount of your notes to maturity.

NO OWNERSHIP OR DIVIDEND ROUTED R

RISK OF THE CLOSING PRICE OF THE REFERENCE STOCK FALLING BELOW THE INTEREST BARRIER OR THE TRIGGER LEVEL IS GREATER IF THE CLOSING PRICE OF THE REFERENCE STOCKS IS VOLATILE—The likeliho the closing price of one share of the Reference Stock —the frequency and magnitude of changes in the closing price of one share of the Reference Stock —the frequency and magnitude of changes in the closing price of the Reference Stock. the closing price of one share price of the Reference Stock.

LACK OF LIQUIDITY — The notes will not be listed on any securities exchange. JPMS intends to offer to purchase the notes in the secondary market but is not required to do so. Even if there is a secondary market, it may not provide enough liquidity to allow you to trade or sell the notes easily. Because other dealers are not likely to make a secondary market for the notes, the price at which you may be able to trade your notes is likely to depend on the price, if any, at which JPMS is willing to buy the notes.

to buy the notes.

HEDGING AND TRADING IN THE REFERENCE STOCK — While the notes are outstanding, we or any of our affiliates may carry out hedging activities related to the notes, including in the Reference Stock or instruments related to the Reference Stock. We or our affiliates may also trade in the Reference Stock or instruments related to the Reference Stock from time to time. Any of these hedging or trading activities as of the pricing date and during the term of the notes occul adversely affect our payment to you at maturity. It is possible that these hedging or trading activities could result in substantial returns for us or our affiliates while the value of the notes declines.

HE ANTHOLUTION PROTECTION FOR THE REFERENCE STOCK IS LIMITED AND MAY BE DISCRETIONARY — If the NATION IN THE ARTHOLUTION PROTECTION FOR THE REFERENCE STOCK IS LIMITED AND MAY BE DISCRETIONARY — If the NATION IN THE ARTHOLUTION PROTECTION FOR THE REFERENCE STOCK IS LIMITED AND MAY BE DISCRETIONARY — If the NATION IN THE NATION IN THE NATION IN THE NATION IN THE NATION IS NOT THE NATION IN THE NATI

MANY ECONOMIC AND MARKET FACTORS WILL IMPACT THE VALUE OF THE NOTES—In addition to the closed and in the Reference Stock on any day, the value of the notes will be impacted by a number of economic and market factors that may either offset or magnify each other including the actual and expected volatility in the closing price of the Reference Stock; time to maturity of the notes, the dividend rate of the Reference Stock; immeter and yield rates in the market generally, a variety of economic, political, regulationy and judicial events, and the oredithorthinses of JPMorgan Chase & Co.

The notes are not bank deposits and are not insured by the Federal Deposit insurance Corporation or any other governmental agency, nor are they obligations of, or guaranteed by, a bank Calculations and determinations will be made in the sole discretion of JPMS, as calculation agent, and may be potentially adverse to your interests as an investor in the notes.
