3yr BABA Contingent Income Auto-Callable Securities

This document provides a summary of the terms of the securities. Investors must carefully review the accompanying preliminary pricing supplement referenced below, product supplement, prospectus supplement and prospectus and the "Risk Considerations" on the following page, prior to making an investment decision.

SUMMARY TERMS	
Issuer:	JPMorgan Chase Financial Company LLC ("JPMorgan Financial")
Guarantor:	JPMorgan Chase & Co.
Underlying stock:	American depositary shares of Alibaba Group Holding Limited ("Alibaba ADSs") (Bloomberg ticker: BABA UN Equity). Each Alibaba ADS represents eight ordinary shares, par value \$0.000003125 per share, of Alibaba Group Holding Limited. The ordinary shares of Alibaba Group Holding Limited are referred to as "Alibaba underlying securities."
Early redemption:	If, on any determination date (other than the final determination date), the closing price of the underlying stock is **greater than or equal to** the initial stock price, the securities will be automatically redeemed for an early redemption payment on the first contingent payment date immediately following the related determination date. No further payments will be made on the securities once they have been redeemed. **The securities will not be redeemed early on any contingent payment date if the closing price of the underlying stock is below the initial stock price on the related determination date.**
Early redemption payment:	The early redemption payment will be an amount equal to (i) the stated principal amount *plus* (ii) the contingent quarterly payment with respect to the related determination date.
Contingent quarterly payment:	· If, on any determination date, the closing price of the underlying stock is greater than or equal to the downside threshold level, we will pay a contingent quarterly payment of at least \$28.00 (at least 2.80% of the stated principal amount) per security on the related contingent payment date. The actual contingent quarterly payment will be provided in the pricing supplement. · If, on any determination date, the closing price of the underlying stock is less than the downside threshold level, no contingent quarterly payment will be made with respect to that determination date. **It is possible that the closing price of the underlying stock will be below the downside threshold level on most or all of the determination dates so that you will receive few or no contingent quarterly payments.**
Determination dates†:	October 30, 2023, January 29, 2024, April 29, 2024, July 29, 2024, October 28, 2024, January 28, 2025, April 28, 2025, July 28, 2025, October 28, 2025, January 28, 2026, April 28, 2026 and July 28, 2026
Contingent payment dates†:	November 2, 2023, February 1, 2024, May 2, 2024, August 1, 2024, October 31, 2024, January 31, 2025, May 1, 2025, July 31, 2025, October 31, 2025, February 2, 2026, May 1, 2026 and the maturity date
Payment at maturity:	· If the final stock price is **greater than or equal to** the downside threshold level: (i) the stated principal amount *plus* (ii) the contingent quarterly payment with respect to the final determination date · If the final stock price is **less than** the downside threshold level: (i) the stated principal amount *times* (ii) the stock performance factor. This cash payment will be less than 50% of the stated principal amount of the securities and could be zero.
Downside threshold level:	50% of the initial stock price
Initial stock price:	The closing price of the underlying stock on the pricing date
Final stock price:	The closing price of the underlying stock on the final determination date
Stock adjustment factor:	The stock adjustment factor is referenced in determining the closing price of the underlying stock and is set initially at 1.0 on the pricing date. The stock adjustment factor is subject to adjustment in the event of certain corporate events affecting the underlying stock.
Stock performance factor:	final stock price / initial stock price
Stated principal amount:	\$1,000 per security
Issue price:	\$1,000 per security

Underlying Stock

For more information about the underlying stock, including historical performance information, see the accompanying preliminary pricing supplement.

Risk Considerations

The risks identified below are not exhaustive. Please see “Risk Factors” in the accompanying prospectus supplement, product supplement and preliminary pricing supplement for additional information.

Risks Relating to the Securities Generally

- The securities do not guarantee the return of any principal and your investment in the securities may result in a loss.
- You will not receive any contingent quarterly payment for any quarterly period if the closing price of the underlying stock on the relevant determination date is less than the downside threshold level.
- The contingent quarterly payment is based solely on the closing prices of the underlying stock on the specified determination dates.
- The securities are subject to the credit risks of JPMorgan Financial and JPMorgan Chase & Co., and any actual or anticipated changes to our or JPMorgan Chase & Co.’s credit ratings or credit spreads may adversely affect the market value of the securities.
- As a finance subsidiary, JPMorgan Financial has no independent operations and has limited assets.
- Investors will not participate in any appreciation of the underlying stock.
- Early redemption risk.
- Secondary trading may be limited.
- The final terms and estimated valuation of the securities will be provided in the pricing supplement.
- The U.S. federal income tax consequences of an investment in the securities are uncertain.

Risks Relating to Conflicts of Interest

- Economic interests of the issuer, the guarantor, the calculation agent, the agent of the offering of the securities and other affiliates of the issuer may be different from those of investors.
- Hedging and trading activities by the issuer and its affiliates could potentially affect the value of the securities.

Risks Relating to the Estimated Value and Secondary Market Prices of the Securities

- The estimated value of the securities will be lower than the original issue price (price to public) of the securities.
- The estimated value of the securities does not represent future values of the securities and may differ from others’ estimates.
- The estimated value of the securities is derived by reference to an internal funding rate.
- The value of the securities as published by J.P. Morgan Securities LLC (and which may be reflected on customer account statements) may be higher than the then-current estimated value of the securities for a limited time period.
- Secondary market prices of the securities will likely be lower than the original issue price of the securities.
- Secondary market prices of the securities will be impacted by many economic and market factors.

Risks Relating to the Underlying Stock

- There are risks associated with investments in securities linked to the value of equity securities issued by a non-U.S. company.
- The securities entail emerging markets risk.
- There are important differences between the rights of holders of Alibaba ADSs and the rights of holders of the Alibaba underlying securities.
- Investing in the securities is not equivalent to investing in the underlying stock.
- No affiliation with Alibaba Group Holding Limited.
- We may engage in business with or involving Alibaba Group Holding Limited without regard to your interests.
- Governmental legislative and regulatory actions, including sanctions, could adversely affect your investment in the securities.
- The anti-dilution protection for the underlying stock is limited and may be discretionary.

Tax Considerations

You should review carefully the discussion in the accompanying preliminary pricing supplement under “Additional Information about the Securities — Tax considerations” concerning the U.S. federal income tax consequences of an investment in the securities, and you should consult your tax adviser.
