

BASEL III PILLAR III DISCLOSURES

JPMorgan Chase Bank, N.A., India

Period ended December 31, 2025

Basel III - Pillar III disclosures for the period ended December 31, 2025

I. Table DF-1: Scope of Application

The Basel III Pillar III disclosures included herein are made solely to meet the requirements in India, and relate solely to the activities of applicable to all JPMorgan Chase Bank, N.A., branches in India, (“JPMorgan Chase Bank, N.A., a scheduled commercial bank under the Reserve Bank of India Act, 1934 acting through its branches in India (hereinafter referred to as “The Bank”)) and its associates, Non Banking Financial Company (NBFC) which is J.P. Morgan Securities India Private Limited (“JPMSI”) and J.P. Morgan India Private Limited (“JPMIPL”) engaged primarily in Merchant Banking, Underwriting, Stock Broking business and Corporate Advisory. The Bank, JPMSI and JPMIPL are wholly-owned subsidiaries of JPMorgan Chase & Co. (“The Firm”) and together constitute “The Consolidated Bank” in line with the Reserve Bank of India (“RBI”) guidelines on the preparation of consolidated prudential returns.

For the purpose of financial reporting, the Bank is not required to consolidate its associate in accordance with Accounting Standard (‘AS’) 21, Consolidated Financial Statements.

For the purpose of consolidated prudential regulatory reporting, the consolidated Bank includes JPMSI and JPMIPL as required by RBI in its circular on “Financial Regulation of Systemically Important NBFC’s and Bank’s relationship with them” vide circular ref. DBOD. No. BP. BC. 72/ 21.04.018/ 2001-02 dated February 25, 2003 read with “Guidelines for consolidated accounting and other quantitative methods to facilitate consolidated supervision” vide circular ref. DBOD.No. BP.BC. 72 /21.04.018/2001-02 dated February 25, 2003 and RBI email received dated January 6, 2021.

The Bank does not have any subsidiaries nor does it hold any major stake in any company.

For a comprehensive discussion of risk management of the Firm, including its consolidated subsidiaries, please refer to Firm's Annual Report for the year ended December 31, 2025, which is available in the Investor Relations section of www.jporganchase.com.

Details of associate of the Bank along with the consolidation status for accounting and regulatory purposes are given below:

a. Accounting and regulatory consolidation

Name of the entity / Country of incorporation	Included under accounting scope of consolidation (yes / no)	Method of consolidation	Included under regulatory scope of consolidation (yes / no)	Method of consolidation	Reasons if consolidated under only one of the scopes of consolidation
J.P. Morgan Securities India Private Limited / (India)	No	NA	Yes	Line by line consolidation method adopted as per AS-21. The financial statements are prepared under Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 (the Act) [Companies (Indian Accounting Standards) Rules,	As per the RBI circular number DBOD. No. BP. BC. 72/ 21.04.018/ 2001-02 dated February 25, 2003 the Bank is not required to publish consolidated financial statements as per AS-21, whereas the Branch is required to include this

				2015 (as amended from time to time)	associate under regulatory scope of consolidation
J.P. Morgan India Private Limited	No	NA	Yes	Line by line consolidation method adopted as per AS-21 The financial statements are prepared under Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 (the Act) [Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time)].	As per the RBI circular number DBOD. No. BP. BC. 72/ 21.04.018/ 2001-02 dated February 25, 2003 the Branch is not required to publish consolidated financial statements as per AS-21, whereas the Branch is required to include this associate under regulatory scope of consolidation.

Note:

1. # Represents Equity Share Capital
2. The above numbers represents balances as at 31st March, 2025
3. * Prepared as per Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 (the Act) [Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time)].

c. List of group entities considered for consolidation

(Rs. in million)

Name of the entity / country of incorporation (as indicated in (i)a. above)	Principal activity of the entity	Total balance sheet equity (as stated in the accounting balance sheet of the legal entity)*#	Total balance sheet assets (as stated in the accounting balance sheet of the legal entity)*
J.P. Morgan Securities India Private Limited (India)	NBFC	4,502	47,837
J.P. Morgan India Private Limited	Merchant banking, Underwriting, Stock broking and investment advisory	879	143,438

Note:

1. # Represents Equity Share Capital
2. * Amounts represent balances as at 31st December, 2025 prepared as per Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 (the Act) [Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time)].

d. The aggregate amount of capital deficiencies in all subsidiaries which are not included in the regulatory scope of consolidation i.e. that are deducted

As of December 31, 2025, the Bank does not have any subsidiaries; hence it is not required to make any deductions for capital deficiencies.

e. The aggregate amounts (e.g. current book value) of the bank's total interests in insurance entities, which are risk-weighted:

As of December 31, 2025, the Bank does not have investment in any insurance entity.

f. Restrictions or impediments on transfer of funds or regulatory capital within the banking group

There are no restrictions or impediments on transfer of funds within the Group.

II. Table DF-2 Capital Adequacy

The Firm's capital management framework is intended to ensure that there is sufficient capital to support the underlying risks of the Firm's business activities and to maintain "well-capitalized" status under US regulatory requirements. In addition, the Firm holds capital above these requirements as deemed appropriate to achieve management's regulatory and debt rating objectives. The Firm assesses its capital adequacy relative to the risks underlying the Firm's business activities, utilizing internal risk-assessment methodologies.

At local level, the Bank leverages to the extent possible the group-wide capital management framework and risk assessment methodologies. These considerations are formalized as part of a local Internal Capital Adequacy Assessment Process (ICAAP), as required by RBI regulation.

The Capital Management process at bank local level is coordinated by the Finance department with inputs from appropriate local and firm wide risk specialists, and is reviewed by the Bank's Management Committee (MANCOM). It is the responsibility of MANCOM to determine the appropriate level of capitalization for the Bank and to ensure the businesses are managed within those capital limits or to request for additional capital in accordance with the Firm's Major Capital Infusion policy. In the normal course of events, MANCOM reviews the adequacy of capital periodically.

A summary of the Consolidated Bank capital requirement under Basel III guidelines for credit risk, market risk and operational risk and the capital adequacy ratio as on December 31, 2025 is presented below.

Capital requirements for credit risk (Rs. in million)

Particulars	Amount ¹
- Portfolios subject to standardized approach	117,234
- Securitization exposure	2,941
Total	120,175

Capital requirements for market risk

Standardized duration method	Amount ¹
- Interest rate risk	39,326
- Foreign exchange risk (including gold)	2,475
- Equity risk	131
Total	41,932

Capital requirements for operational risk

Particulars	Amount ¹
- Basic indicator approach	23,279

Particulars	Standalone ²	Consolidated ¹
CRAR	18.76%	28.58%
Tier I CRAR	16.36%	26.35%
Tier II CRAR	2.40%	2.23%

Notes:-

1. Includes entities considered under regulatory scope of consolidation.
2. Standalone represents JPMorgan Chase Bank, N.A., India.

III. Table DF-3: Credit Risk

Credit Risk Management Policy

Credit risk is the risk of loss arising from the default of a customer, client or counterparty. The Firm provides credit to a variety of customers, ranging from large corporate and institutional clients to the individual consumers and small businesses. The Firm manages the risk/reward relationship of each credit and discourages the retention of assets that do not generate a positive return above the cost of risk-adjusted capital.

The Board of Directors' Risk Committee (Board Risk Committee) and the Firm's CEO mandate the existence of an Independent Risk Management (IRM) function. The CEO appoints Firm's Chief Risk Officer (CRO) to create the Risk governance structure subject to approval by the Board Risk Committee in the form of Primary Risk Policies, and to manage the IRM function on a day to day basis.

Credit Risk management is an independent risk management function that monitors and measures credit risk throughout the Firm and defines credit risk policies and procedures. The Firm's credit risk management governance consists of the following primary functions:

Establishing and maintaining a credit risk policy framework.

Monitoring and measuring credit risk across all portfolio segments, including transaction and exposure approval.

Setting industry concentration limits and establishing underwriting guidelines.

Assigning and monitoring credit authorities in connection with the approval of all credit exposure.

Managing criticized exposures and delinquent loans.

Establishing credit losses and ensuring appropriate credit risk-based capital management.

In India, the Bank appoints a CRO, based on recommendation received from the global risk organisation of the firm, as further approved by the MANCOM. The CRO is responsible for enterprise wide risk management covering credit, market, liquidity, interest rate, reputation and operational risk. The CRO will oversee the risk management department in India and will not perform any other roles like CEO, CFO, COO, Audit or such other functions, and will only be involved in risk management functions.

Risk identification

The Firm is exposed to credit risk through its underwriting, lending, market-making, and hedging activities with and for clients and counterparties, as well as through its operating services activities (such as cash management and clearing activities), securities financing activities, investment securities portfolio and cash placed with banks. Credit risk management works in partnership with the business segments in identifying and aggregating exposures across all lines of business.

Risk measurement

To measure credit risk, the Firm employs several methodologies for estimating the likelihood of obligor or counterparty default. Credit risk measurement is based upon the amount of exposure should the obligor or the counterparty default, the probability of default and the loss severity given a default event. These finally result in a facility grade for each facility sanctioned by the Firm to a customer. Based on these factors and related market-based inputs, the Firm estimates credit losses for its exposures. Probable credit losses inherent in the consumer and wholesale held for investment loan portfolios are reflected in the allowance for loan losses, and probable credit losses inherent in lending-related commitments are reflected in the allowance for lending related commitments. These losses are estimated using statistical analysis and other factors. In addition, potential and unexpected

credit losses are reflected in the allocation of credit risk capital and represent the potential volatility of actual losses relative to the established allowances for loan losses and lending related commitments. Risk measurement for the wholesale portfolio is assessed primarily on a risk rated basis.

Credit loss estimates are based on estimates of the probability of default (“PD”) and loss severity given a default. The estimation process includes assigning risk-ratings to each borrower and credit facility to differentiate risk within the portfolio. These risk-ratings are reviewed regularly by Credit Risk Management and revised as needed to reflect the borrower’s current financial position, risk profile and related collateral. The probability of default is estimated for each borrower, and a loss given default is estimated considering the collateral and structural support for each credit facility. The calculations and assumptions are based on historic experience and management judgment and are reviewed regularly.

Risk monitoring

The Firm has developed policies and practices that are designed to preserve the independence and integrity of the approval and decision-making process of extending credit to ensure credit risks are assessed accurately, approved properly, monitored regularly and managed actively at both the transaction and portfolio levels. The Firm’s policy framework establishes credit approval authorities, concentration limits, risk-grading methodologies, portfolio review parameters and guidelines for management of distressed exposures. Wholesale credit risk is monitored regularly at an aggregate portfolio, industry and an individual client and counterparty level. In order to meet credit risk management objectives, the Firm seeks to maintain a risk profile that is diverse in terms of borrower, product type, industry and geographic concentration. Management of the Firm’s wholesale exposure is accomplished through loan underwriting and credit approval process, loan syndication and participations, loan sales and securitisations, credit derivatives, use of master netting agreements and collateral and other risk-reduction techniques.

At a local level, the consolidated bank monitors large exposures in accordance with RBI regulations on single / group obligor limits. This ensures that large single obligor / group exposures are managed within appropriate limits set in relation to our capital resources. For the Bank, Single and Group Obligor exposure limits are set as per the Large Exposures Framework (LEF) guidelines of the RBI. Exposure are closely monitored on the daily basis against internal limits which are set lower than the regulatory ceiling. When an exposure is reasonably close to internal limits it will be tracked closely to ensure that there are no breaches of the regulatory ceiling through fresh disbursements/transactions. Any breaches in the internal limits are highlighted to senior management immediately along with the reasons for the breach. Management then takes a decision on the future course of action on exposures to that particular client. These breaches, if any are also reported to RBI. In addition, industry concentrations and risk mitigation through collateral are also addressed in the local credit policies for all credit exposures. The local policy for the Bank also specifically addresses the RBI guidelines that the Bank will follow with respect to its exposure to sectors like Real Estate, and NBFC’s, and policies governing transfer of loans and securitisation. Further, in line with RBI regulation on Exposure to Intra group entities, (ITEs), the bank has implemented daily exposure monitoring process for single entity and intra group entity exposure.

Risk reporting

At a firm level, to enable monitoring of credit risk and effective decision making, aggregate credit exposure, credit quality forecasts, concentration levels and risk profile changes are reported regularly to senior members of credit risk management. Detailed portfolio reporting of industry, customer, product and geographic concentrations occurs monthly, and the appropriateness of the allowance for credit losses is reviewed by senior management at least on a quarterly basis. Through the risk reporting and governance structure, credit risk trends and limit exceptions are provided regularly to and discussed with Senior Management and the Board of Directors as appropriate.

At a local level, the Credit Risk function reports into the India Chief Credit Officer and is additionally overseen by the India CRO of the Bank. The CRO works closely with the regional as well as global Credit Risk Management (CRM) teams to ensure that the credit exposure taken at the Bank is in line

with the Bank's risk management policy framework. There is a comprehensive credit authority / delegation framework in place which enables decision making to be escalated/delegated in response to the size and risk intensity of the request.

The India Credit Committee (ICC) approves the credit exposure that is to be booked in the Bank in accordance with the loan policy.

The ICC meets on a periodic basis and accords its decision on credit/investment requests from the various business units at the Bank. Similarly for JPMSI the Credit and Investment Committee reviews and approves proposals to book loans and advances in this entity. Once every 2 months, the India Risk Committee (IRC) reviews the Bank's portfolio and break-down of the portfolio by sector, security, products, rating etc and updates on the sensitive sectors, unhedged foreign currency exposure, etc are reviewed on a quarterly basis by the IRC. JPMSI Risk Management Committee (RMC) reviews the credit portfolio on a quarterly basis.

Definition of past due and impaired

Any amount due to the consolidated bank under any credit facility is 'overdue' if it is not paid on the due date fixed (i.e. is not paid as per the date the obligor is obligated to pay). In case of the Bank an NPA shall be a loan or an advance or a derivative contract where any amount to be received (as per the contractual terms) remains overdue for a period of more than 90 days or in respect of an Overdraft/Cash Credit the account remains 'out of order' for a period of more than 90 days, in line with RBI directives. Likewise, in case of JPMSI, NPA shall be an asset where any amount to be received (as per the contractual terms) remains overdue for a period of 3 months or more.

IV. Table DF-4 - Credit Risk: Standardised approach

The consolidated bank is using issue ratings which are assigned by the accredited rating agencies viz. CRISIL, ICRA, ACUITE, India Ratings and CARE, published in the public domain to assign risk-weights in terms of RBI guidelines for certain exposures. In respect of claims on non-resident corporate/ foreign banks, ratings assigned by international rating agencies i.e. Standard & Poor's, Moody's and Fitch are used. Final ratings applied are in line with the regulatory requirements.

Details of Gross Credit Risk Exposure (fund based and non-fund based) after adjusting risk mitigation based on Risk - Weight:

(Rs. in million)

Particulars	Amount¹

XVIII. Leverage Ratio

The Basel III leverage ratio is defined as the capital measure (Tier-1 capital of the risk based capital framework) divided by the exposure measure. The Bank is required to maintain a minimum leverage ratio of 3.5%. As per RBI guidelines, disclosures required for leverage ratio for the Bank at the consolidated level at December 31, 2025 (including prior quarters) are as follows:

(Rs. in million)

Particulars	As on 31-Dec-2025	As on 30-Sep-2025	As on 30-Jun-2025	As on 31-Mar-2025
Tier 1 Capital	305,351	285,378	281,774	278,245
Exposure Measure	2,385,781	2,342,893	2,238,977	2,371,562
Leverage Ratio	12.80%	12.18%	12.58%	11.73%
