1.Introduction

Background

The need to assess whether an institution should disclose some information more frequently than annually, under Part Eight of the Capital Requirements Regulation ('CRR')¹, originates in Article 433 and the requirements are further articulated in the European Banking Authority ('EBA') Guidelines² ('GL1'), which were adopted by the Commission de Surveillance du Secteur Financier ('CSSF')³ from 15th November 2017.

In addition, the requirements of EBA Final Report on Guidelines for Disclosure under Part Eight of the CRR⁴ ('EBA GL2') have been incorporated into JPMC's disclosure process from 1st January 2018, and are followed for this document.

Production of all Pillar 3 disclosure for J.P. Morgan entities in the EMEA region is governed by the JPMC EMEA Pillar 3 Policy Addendum which outlines scope, review and approval governance process requirements, including annual review on frequency and omissions policies.

All J.P. Morgan Chase entities regulated under the Capital Requirements Directive IV ('CRD IV')⁵ have applied the Guidelines by:

- Enhancing the Pillar 3 policy and process to include a full assessment of the need to publish data more frequently than annually; and
- Identifying the key data elements to disclose in order to meet the needs of potential users of the disclosure.

Scope

All J.P. Morgan European regulated entities have been considered in the assessment, under the JPMC EMEA Pillar 3 Policy, for inclusion for disclosure, and then for more frequent than annual disclosure.

J.P. Morgan Bank Luxembourg S.A. ('JPMBL') is defined as an Other Systemically Important Institution ('O-SII') and is therefore included for disclosure under the requirements of EBA GL².

The internal assessment process to determine which J.P. Morgan entities should disclose more frequently than annually concluded that JPMBL is meeting the qualitative and quantitative thresholds to necessitate more frequent disclosure.

The data disclosed in this document represents disclosure for the third quarter of 2018. All data is recorded as at 30th September 2018, consistent with CoRep reporting and produced on an unaudited basis. No items have been omitted due to confidentiality, materiality or for proprietary reasons under Titles III and IV of the Guidelines. Any line items that are not applicable have been hidden for presentation purposes.

All information in this report is disclosed in millions of United States Dollars (US\$m), unless otherwise specified. JPMBL is presenting its disclosures on an individual basis (including foreign branches). There are no subsidiaries to be consolidated. As at 30th September 2018, JPMBL has five branches located respectively in Amsterdam (J.P. Morgan Bank Luxembourg S.A., Amsterdam Branch), Helsinki (J.P. Morgan Bank Luxembourg S.A., Helsinki Branch), Oslo (J.P. Morgan Bank Luxembourg S.A., Oslo Branch), Copenhagen (J.P. Morgan Bank Luxembourg S.A., Copenhagen Branch) and Stockholm (J.P. Morgan Bank Luxembourg S.A., Stockholm Branch).

Means of Disclosure (Art. 434)

The disclosure report is made available according to Article 434 CRR on the website of JPMorgan Chase & Co. ('JPMC') at <http://investor.shareholder.com/jpmorganchase/basel.cfm>. The latest Annual disclosure is also available via this link.

Firmwide Disclosure

The ultimate parent of the entity in scope of this disclosure is JPMorgan Chase & Co., which is incorporated in the United States of America. Firmwide disclosure is made under the Basel III requirement available at the below link. In addition, the U.S. Securities and Exchange Commission filings made at the firmwide level, 10K and 10Q, provide further information at the following link:

<http://investor.shareholder.com/jpmorganchase/basel.cfm>.

2. Own Funds (Art. 437)

Own Funds Disclosures

Capital resources represent the amount of regulatory capital available to an entity to cover all risks. Defined under the CRR, capital resources are designated into two tiers, Tier 1 and Tier 2. Tier 1 capital consists of Common Equity Tier 1 (“CET1”) and Additional Tier 1 (“AT1”). CET1 is the highest quality of capital and typically represents share capital, reserves and audited profit; AT1 contains hybrid debt instruments; Tier 2 capital typically consists of subordinated debt and other eligible capital instruments.

The information represented in the tables below constitutes the applicable data elements for Own Funds identified in Title VII of the Guidelines. Capital ratios are disclosed in accordance with the CRR.

The final column represents the capital position on a fully-phased in basis after all CRR transitional provisions have expired and phase-out of grandfathered capital instruments under pre-CRR national transposition measures is complete. Other capital impacts including instrument maturity or behavioral changes are not considered for the fully-phased in position.

Table 1: CRD IV Regulatory Capital for JPMBL

Transitional Own Funds Disclosure Template (\$'m)		Amount at Disclosure Date	Regulation (EU) No 575/2013 Article Reference	Fully-Phased in Position
Common Equity Tier 1 (CET1) Capital: Instruments and Reserves				
1	Capital instruments and the related share premium accounts	2,011	26 (1), 27, 28, 29, EBA list 26 (3)	2,011
	<i>of which: Ordinary Shares</i>	17	EBA list 26 (3)	17
	<i>of which: Share premium</i>	1,994	EBA list 26 (3)	1,994
2	Retained earnings	1,392	26 (1) (c)	1,392
6	Common Equity Tier 1 (CET1) capital before regulatory adjustments	3,403		3,403
29	Common Equity Tier 1 (CET1) capital	3,403		3,403
45	Tier 1 capital (T1 = CET1 + AT1)	3,403		3,403
59	Total capital (TC = T1 + T2)	3,403		3,403
60	Total risk weighted assets	5,292		5,292
Capital Ratios and Buffers				
61	Common Equity Tier 1 (as a percentage of total risk exposure amount)	64.30%	92 (2) (a), 465	64.30%
62	Tier 1 (as a percentage of total risk exposure amount)	64.30%	92 (2) (b), 465	64.30%
63	Total capital (as a percentage of total risk exposure amount)	64.30%	92 (2) (c)	64.30%
64	Institution specific buffer requirement (CET1 requirement in accordance with article 92 (1) (a) plus capital conservation and countercyclical buffer requirements, plus systemic risk buffer, plus systemically important institution buffer (G-SII or O-SII buffer) expressed as a percentage of risk exposure amount)	9.38%	CRD 128, 129, 130	9.50%
65	<i>of which: capital conservation buffer requirement</i>	2.50%		2.50%
66	<i>of which: countercyclical buffer requirement</i>	0.00%		0.00%
67	<i>of which: systemic risk buffer requirement</i>	0.00%		0.00%
67a	<i>of which: Global Systemically Important Institution (G-SII) or Other Systemically Important Institution (O-SII) buffer</i>	0.38%	CRD 131	0.50%
68	Common Equity Tier 1 available to meet buffers (as a percentage of risk exposure amount)	56.30%	CRD 128	56.30%

Own Funds Reconciliation

The tables below present a reconciliation between unaudited balance sheet own funds and regulatory own funds as at 30th September 2018 in accordance with the requirements set out in Commission Implementing Regulation (EU) No 1423/2013.

Table 2: Reconciliation of Regulatory Own Funds to Balance Sheet for JPMBL

Regulatory Own Funds Reconciliation to Balance Sheet	\$'m
CET1 Capital	3,403
157,971 Ordinary Shares of \$110 each	17
Share Premium Account	1,994
Other Reserves	19
Retained Earnings	1,373
CET1 Capital - Balance Sheet Own Funds	3,403
CET1 Capital - Regulatory Own Funds After Adjustments	3,403
Total Regulatory Own Funds	3,403

Main Features of Capital Instruments

The table below presents the main features of regulatory capital instruments for JPMBL as at 30th September 2018 and as required by Commission Implementing Regulation (EU) No 1423/2013. The terms and conditions for these instruments can be found on the Luxembourg business registers (LBR) website.

Table 3: Main Features of Regulatory Capital Instruments

Capital Instruments Main Features (\$'m)		JPMBL
		CET1
		\$110 ordinary shares
1	Issuer	J.P. Morgan Bank Luxembourg S.A.
3	Governing law(s) of the instrument	Article 37 et seq. of "Luxembourg Company Law: Law of 10th August 1915 on commercial companies" (Loi du 10 août 1915 concernant les sociétés commerciales)
4	Transitional CRR rules	Common Equity Tier 1
5	Post-transitional CRR rules	Common Equity Tier 1
6	Eligible at solo/(sub-)consolidated/ solo&(sub-)consolidated	Solo
7	Instrument type (types to be specified by each jurisdiction)	Shares of a public limited liability company (Actions d'une société anonyme)
8	Amount recognised in regulatory capital (Currency in million, as of most recent reporting date)	USD 17
9	Nominal amount of instrument	USD 110
9a	Issue price	USD 110
10	Accounting classification	Shareholders' equity
11	Original date of issuance	May 16 th , 1973
12	Perpetual or dated	Perpetual
17	Fixed or floating dividend/coupon	Floating
19	Existence of a dividend stopper	No
20a	Fully discretionary, partially discretionary or mandatory (in terms of timing)	Fully discretionary
20b	Fully discretionary, partially discretionary or mandatory (in terms of amount)	Fully discretionary
22	Noncumulative or cumulative	Non-cumulative
23	Convertible or non-convertible	Non-convertible
35	Position in subordination hierarchy in liquidation (specify instrument type immediately senior to instrument)	Equity is the lowest level in the hierarchy
36	Non-compliant transitioned features	No

3.Capital Requirements (Art. 438)

The tables below show a breakdown of the risk weighted assets and associated Minimum Capital Requirements for JPMBL. The Minimum Capital Requirement is the amount of Pillar 1 capital that the CRR requires JPMBL to hold at all times. JPMBL Total Capital Resources must be greater than its Minimum Capital Requirement, allowing for a capital excess to cover any additional obligations, for example, Pillar 2.

The key risk types JPMBL is exposed to for Capital allocation purposes are Credit risk and Operational risk. The basic indicator approach has been used for the calculation of Operational Risk Capital Requirements. The Standardised Approach has been used for the calculation of Credit Risk.

Table 4: EU OV1 - Overview of RWAs for JPMBL

(\$'m)		RWA		Minimum capital requirements
		Q3 2018	Q2 2018	
1	Credit risk (excluding counterparty credit risk) (CCR)	4,597	2,674	367
2	<i>Of which</i> the standardised approach	4,597	2,674	367
23	Operational Risk	695	695	56
24	<i>Of which</i> basic indicator approach	695	695	56
29	Total	5,292	3,368	423

4. Leverage (Article 451)

The leverage ratio is a measure of Tier 1 capital as a percentage of exposure as defined under the CRR rules. The requirement for the calculation and reporting of leverage ratios was introduced as part of CRD IV in 2014, and amended by the European Commission Delegated Act (EU) 2015/62 in 2015.

As a result of this, CRD IV legislation allows for the calculation of a transitional leverage ratio aligned to the phasing in of a number of capital deductions and the phasing out of grandfathered instruments as allowed for the calculation of own funds under the CRR. CRD IV does not currently include a minimum Leverage Ratio requirement; however, the Basel Committee on Banking Supervision (the 'Basel Committee') has indicatively proposed a minimum requirement of 3%.

Leverage risk is monitored through the same processes and frameworks as capital adequacy and stress-testing. The latter is particularly important, as it is forward-looking: if the Firm's leverage ratios remain sustainable under stressed conditions, the risk of forced de-leveraging will be low.

The Firm has adopted a point-in-time calculation of the leverage ratio, as per Commission Delegated Regulation 2015/62. The information represented in the tables below constitutes the key applicable data elements for leverage identified in Title VII of the EBA Guidelines.

Table 5: Summary Reconciliation of Accounting Assets and Leverage Ratio Exposures

Regulatory Own Funds Reconciliation to Balance Sheet		\$'m
1	Total assets as per prudential reporting	25,270
6	Adjustment for off-balance sheet items (ie conversion to credit equivalent amounts of off-balance sheet exposures)	90
13	Leverage ratio total exposure measure	25,360

Table 6: Leverage Ratio Common Disclosure

Regulatory Own Funds Reconciliation to Balance Sheet		\$'m
On-balance sheet exposures		
1	On-balance sheet items (excluding derivatives, SFTs and fiduciary assets, but including collateral)	25,270
3	Total on-balance sheet exposures (excluding derivatives, SFTs and fiduciary assets)	25,270
Other off-balance sheet exposures		
17	Off-balance sheet exposures at gross notional amount	896
18	(Adjustments for conversion to credit equivalent amounts)	- 806
19	Other off-balance sheet exposures (sum of lines 17 and 18)	90
Capital and total exposure measure		
20	Tier 1 capital	3,403
21	Leverage ratio total exposure measure (sum of lines 3, 11, 16, 19, EU-19a and EU-19b)	25,360
Leverage ratio		
22	Leverage ratio	13.42%

5. Liquidity (Article 435 (1) (f))

The Liquidity Coverage Ratio⁶ as per the Commission Delegated Regulation (EU) 2015/61 requires credit institutions to maintain an amount of unencumbered high quality liquid assets that is sufficient to meet their estimated total net cash outflows over a prospective 30 calendar-day period of significant stress. The LCR was required to be at least 60% at 1st October 2015, rising to 70% on 1st January 2016 and 80% on 1st January 2017 until reaching a minimum requirement of 100% from 1st January 2018.

Key Ratios and Figures

The LCR disclosure in this document has been assessed in accordance with the European Banking Authority (EBA) guidelines on LCR disclosure (EBA/GL/2017/01) applying the necessary considerations set out in the EBA guidelines on materiality, proprietary and confidentiality and on disclosure frequency (EBA/GL/2014/14) and consistent with the EBA guidelines on disclosure requirements (EBA/GL/2016/11).

Table 7: Items prone to rapid change as defined in EBA GL/2017/01 for JPMBL

	JPMBL		
Currency and units:	(\$'m)		
Quarter ending on:	31-Mar-18	30-Jun-18	30-Sep-18
Number of data points used in the calculation of averages	12	12	12
	Total weighted adjusted value (average)		
LIQUIDITY BUFFER	3,016	3,301	3,584
TOTAL NET CASH OUTFLOWS	1,978	1,966	1,992
LIQUIDITY COVERAGE RATIO (%)	153%	168%	181%

The weighted adjusted value of the liquidity buffer is the value of the total high quality liquid assets after the application of both haircuts and any applicable cap. The weighted adjusted value of net cash outflows is calculated after the inflows and outflows rates are applied and after any applicable cap on inflows.

JPMBL's average LCR was 181% for the quarter ending on 30th September 2018.

⁶In line with the EBA guidelines the average ratio disclosed in Table 7 is calculated as an average over the 12 data points used for each item, and therefore the quoted ratio is not equal to the average 'Liquidity buffer' divided by average 'Total net cash outflows'.
