For more information about the estimated value of the notes, which likely will be lower than the price you paid for the notes, please see the hyperlink above.

Any payment on the notes is subject to the credit risk of JPMorgan Chase Financial Company LLC, as issuer of the notes, and the credit risk of JPMorgan Chase & Co., as guarantor of the notes.

The "total return" as used above is the number, expressed as a percentage, that results from comparing the payment at maturity per \$1,000 principal amount note to \$1,000.
