Part II Organizational Action Attach additional statements if needed. See back of form for additional questions.

14 Describe the organizational action and, if applicable, the date of the action or the date against which shareholders' ownership is measured for the action ▶

Organizational action: Quarterly cash dividends on JPMorgan Chase & Co. common stock in excess of \$0.38 per share, which under the terms of the single class of warrants outstanding results in a decrease in the exercise price of the warrants and may result in an increase in the warrant share number.

Date of action: Record date October 6, 2016

The terms of the warrants may be viewed on the Securities and Exchange Commission's website at:
www.sec.gov/Archives/edgar/data/19617/000119312509251114/dex42.htm

15 Describe the quantitative effect of the organizational action on the basis of the security in the hands of a U.S. taxpayer as an adjustment per share or as a percentage of old basis ▶

Section 305(c) dividend: The organizational action results in a Section 305(c) taxable deemed dividend to warrant holders.
Amount of taxable dividend: \$0.0515 per warrant

Effect on basis: The taxable dividend is added to cost basis in the warrants.

16 Describe the calculation of the change in basis and the data that supports the calculation, such as the market values of securities and the valuation dates ▶ The valuation reference date is October 3, 2016, one day before the ex-dividend date.

Calculation: The excess of (A) over (B):

(A) The fair market value of the warrants immediately after the adjustment to exercise price and warrant share number is calculated using an American style option pricing model with pricing inputs including: volatility, the risk free return, the market price of common shares, the dividend yield on common shares, and the remaining term of the warrants.

(B) The fair market value, determined immediately after the adjustment to exercise price and warrant share number using all of the pricing inputs described in (A) above, of the warrants as if no adjustment to exercise price and warrant share number had occurred.

Effect on Basis: The taxable dividend is added to cost basis in the warrants.

Additional information describing the terms of the warrants is available on JPMorgan Chase & Co's website at jpmorganchase.com, under the heading "Investor Relations, Shareholder Information: Warrant Information."

Part II Organizational Action (continued)

17 List the applicable Internal Revenue Code section(s) and subsection(s) upon which the tax treatment is based ▶ IRC Section 305(c)

The valuation standard under section 305(c) is "... the excess of (A) the fair market value of the right to acquire stock immediately after the applicable adjustment, over (B) the fair market value, determined immediately after the applicable adjustment, of such right to acquire stock as if no applicable adjustment had occurred." See section 1.305-7(c)(4) of the proposed Treasury Regulations.

18 Can any resulting loss be recognized? ▶ Not applicable

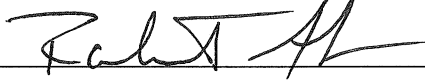

19 Provide any other information necessary to implement the adjustment, such as the reportable tax year ▶ Reportable tax year: The warrant adjustment described above, with record date October 6, 2016, impacts 2016 tax year reporting.

Additional 2016 tax year adjustments: The schedule below summarizes the impact to the tax cost basis of each warrant holder of record on the warrant adjustment dates in 2016, based on section 1.305-7(c)(4) of the proposed Treasury Regulations.

Adjustment Date	Amount of Basis Adjustment
January 6, 2016	\$0.0281
April 6, 2016	\$0.2334 (higher than other quarters because warrant share number conversion ratio increased from 1.00 to 1.01)
July 6, 2016	\$0.0512
October 6, 2016	\$0.0515
