Underlying Stock

For more information about the underlying stock, including historical performance information, see the accompanying preliminary pricing supplement.

Risk Considerations

The risks identified below are not exhaustive. Please see "Risk Factors" in the accompanying prospectus supplement, product supplement and preliminary pricing supplement for additional information.

Risks Relating to the Securities Generally

- The securities do not guarantee the return of any principal and your investment in the securities may result in a loss.
- You will not receive any contingent quarterly payment for any quarterly period if the closing price of the underlying stock on the relevant determination date is less than the downside threshold level.
- The contingent quarterly payment is based solely on the closing prices of the underlying stock on the specified determination dates.
- The securities are subject to the credit risks of JPMorgan Financial and JPMorgan Chase & Co., and any actual or anticipated changes to our or JPMorgan Chase & Co.'s credit ratings or credit spreads may adversely affect the market value of the securities.
- As a finance subsidiary, JPMorgan Financial has no independent operations and has limited assets.
- Investors will not participate in any appreciation of the underlying stock
- Early redemption risk
- Secondary trading may be limited.
- The final terms and valuation of the securities will be provided in the pricing supplement.
- The U.S. federal income tax consequences of an investment in the securities are uncertain.

Risks Relating to Conflicts of Interest

- Economic interests of the issuer, the guarantor, the calculation agent, the agent of the offering of the securities and other affiliates of the issuer may be different from those of investors.
- Hedging and trading activities by the issuer and its affiliates could potentially affect the value of the securities

Risks Relating to the Estimated Value and Secondary Market Prices of the Securities

- The estimated value of the securities will be lower than the original issue price (price to public) of the securities
- The estimated value of the securities does not represent future values of the securities and may differ from others' estimates.
- The estimated value of the securities is derived by reference to an internal funding rate.
- The value of the securities as published by J.P. Morgan Securities LLC (and which may be reflected on customer account statements) may be higher than the then-current estimated value of the securities for a limited time period.
- Secondary market prices of the securities will likely be lower than the original issue price of the securities.
- Secondary market prices of the securities will be impacted by many economic and market factors.

Risks Relating to the Underlying Stock

- Investing in the securities is not equivalent to investing in the common stock of Exxon Mobil Corporation.
- No affiliation with Exxon Mobil Corporation.
- We may engage in business with or involving Exxon Mobil Corporation without regard to your interests.
- The anti-dilution protection for the underlying stock is limited and may be discretionary.

Tax Considerations

You should review carefully the discussion in the accompanying preliminary pricing supplement under "Additional Information about the Securities — Tax considerations" concerning the U.S. federal income tax consequences of an investment in the securities, and you should consult your tax adviser.
