## 1. Introduction

### Overview

The Basel Committee on Banking Supervision published its set of rules on 16<sup>th</sup> December 2010, referred to as Basel III.

The Basel framework consists of a three 'Pillar' approach:

- **Pillar 1** establishes minimum capital requirements, defines eligible capital instruments, and prescribes rules for calculating risk weighted assets ('RWA');
- **Pillar 2** requires banks to have an Internal Capital Adequacy Assessment Process ('ICAAP') and requires that banking supervisors evaluate each bank's overall risk profile as well as its risk management and internal control processes; and
- **Pillar 3** encourages market discipline through a prescribed set of disclosure requirements which allow market participants to assess the risk and capital profiles of banks.

Regulation (EU) 2019/876 (CRR2) amending Regulation (EU) No 575/2013 (the CRR) and the Capital Requirements Directive V (EU) 2019/878 (CRD V) were published in May 2019 in the Union Official Journal.

The CRD V / CRR 2 texts introduce components of the Basel III framework, including changes into the Pillar 3 framework in the EU. The key updates include the introduction of new definitions, scope of disclosure requirements and its reporting frequency.

The revised Pillar 3 framework is applicable J.P. Morgan Dublin plc (JPMD) from September 2022 (When JPMD adopted CRR2).
