Automatic Call

If the closing price of one share of the Fund on any Review Date (other than the first, second and final Review Dates) is greater than or equal to the Initial Value, the notes will be automatically called for a cash payment, for each \$1,000 principal amount note, equal to (a) \$1,000 plus (b) the Contingent Interest Payment applicable to that Review Date, payable on the applicable Call Settlement Date. No further payments will be made on the notes.

Payment at Maturity

If the notes have not been automatically called and (i) the Final Value is greater than or equal to the Initial Value or (ii) a Trigger Event has not occurred, you will receive a cash payment at maturity, for each \$1,000 principal amount note, equal to (a) \$1,000 plus (b) the Contingent Interest Payment applicable to the final Review Date.

If the notes have not been automatically called and (i) the Final Value is less than the Initial Value and (ii) a Trigger Event has occurred, your payment at maturity per \$1,000 principal amount note, in addition to any Contingent Interest Payment, will be calculated as follows:

$$\$1,000 + (\$1,000 \times \text{Fund Return})$$

If the notes have not been automatically called and (i) the Final Value is less than the Initial Value and (ii) a Trigger Event has occurred, you will lose some or all of your principal amount at maturity.

Capitalized terms used but not defined herein shall have the meanings set forth in the preliminary pricing supplement.

Any payment on the notes is subject to the credit risk of JPMorgan Chase Financial Company LLC, as issuer of the notes, and the credit risk of JPMorgan Chase & Co., as guarantor of the notes.

This table does not demonstrate how your interest payments can vary over the term of your notes.

Contingent Interest

*If the notes have not been automatically called and the closing price of one share of the Fund on any Review Date is greater than or equal to the Interest Barrier, you will receive on the applicable Interest Payment Date for each \$1,000 principal amount note a Contingent Interest Payment equal to between \$6.6667 and \$8.3333 (equivalent to an interest rate of between 8.00% and 10.00% per annum, payable at a rate of between 0.66667% and 0.83333% per month).

**The hypothetical payments on the notes shown above apply only if you hold the notes for their entire term or until automatically called. These hypotheticals do not reflect fees or expenses that would be associated with any sale in the secondary market. If these fees and expenses were included, the hypothetical payments shown above would likely be lower.

Selected Risks

- Your investment in the notes may result in a loss. The notes do not guarantee any return of principal.
- The notes do not guarantee the payment of interest and may not pay interest at all.
- Any payment on the notes is subject to the credit risks of JPMorgan Chase Financial Company LLC and JPMorgan Chase & Co. Therefore the value of the notes prior to maturity will be subject to changes in the market's view of the creditworthiness of JPMorgan Chase Financial Company LLC or JPMorgan Chase & Co.
- The appreciation potential of the notes is limited to the sum of any Contingent Interest Payments that may be paid over the term of the notes.
- The benefit provided by the Trigger Value may terminate on any day during the Monitoring Period.
- The automatic call feature may force a potential early exit.
- No dividend payments or voting rights.
- The Fund is subject to management risk.
- The performance and market value of the Fund, particularly during periods of market volatility, may not correlate with the performance of the Fund's underlying index as well as the net asset value per share.
- The notes are subject to risks associated with the gold and silver mining industries.
- The notes are subject to the risks associated with non-U.S. securities.
- The notes are subject to currency exchange risk.
- The anti-dilution protection for the Fund is limited.
- As a finance subsidiary, JPMorgan Chase Financial Company LLC has no independent operations and has limited assets.

Selected Risks (continued)

- The estimated value of the notes will be lower than the original issue price (price to public) of the notes.
- The estimated value of the notes is determined by reference to an internal funding rate.
- The estimated value of the notes does not represent future values and may differ from others' estimates.
- The value of the notes, which may be reflected in customer account statements, may be higher than the then current estimated value of the notes for a limited time period.
- Lack of liquidity: J.P. Morgan Securities LLC (who we refer to as JPMS) intends to offer to purchase the notes in the secondary market but is not required to do so. The price, if any, at which JPMS will be willing to purchase notes from you in the secondary market, if at all, may result in a significant loss of your principal.
- Potential conflicts: We and our affiliates play a variety of roles in connection with the issuance of notes, including acting as calculation agent and hedging our obligations under the notes, and making the assumptions used to determine the pricing of the notes and the estimated value of the notes when the terms of the notes are set. It is possible that such hedging or other trading activities of J.P. Morgan or its affiliates could result in substantial returns for J.P. Morgan and its affiliates while the value of the notes decline.
- The tax consequences of the notes may be uncertain. You should consult your tax adviser regarding the U.S. federal income tax consequences of an investment in the notes.

The risks identified above are not exhaustive. Please see "Risk Factors" in the prospectus supplement and the applicable product supplement and underlying supplement and "Selected Risk Considerations" in the applicable preliminary pricing supplement for additional information.
