**Preliminary Pricing Supplement:** [Link to document]

For information about the estimated level of the notes, which will likely be lower than the price you paid for the notes, see the hyperlink above.

**Automatic Call**

If on any Review Date (other than the first, second, third, fourth, fifth and final Review Dates) the closing level of each Underlying is greater than or equal to its Initial Level, the Notes will be automatically called and you will receive a cash payment for each $1,000 principal amount note, equal to (a) $1,000 plus (b) the Contingent Interest Payment applicable to that Review Date.

**Payment at Maturity**

If the Notes have not been called and the Final Level of each Underlying is greater than or equal to its respective Trigger Level, you will receive a cash payment at maturity, for each $1,000 principal amount note, equal to (a) $1,000 plus (b) the Contingent Interest Payment applicable to the Final Review Date.

If the Notes have not been called and the Final Level of any Underlying is less than its Trigger Level at maturity, you will receive 1% of the principal amount of your notes for every 1% that the Final Level of the Least Performing Underlying is less than its Initial Level, subject to any Contingent Interest Payment payable at maturity. Under these circumstances, your payment at maturity per $1,000 principal amount note, in addition to any Contingent Interest Payment, will be calculated as follows:

\[
\text{$1,000} - \left(\frac{\text{Final Level} - \text{Initial Level}}{100}\right) \times \text{Principal Amount} \times 0.01
\]

Capitalized terms used but not defined herein shall have the meanings set forth in the preliminary pricing supplement.

Any payment on the notes is subject to the credit risks of JPMorgan Chase Financial Company LLC, as issuer of the notes and the credit risks of JPMorgan Chase & Co., as guarantor of the notes.

**Contingent Interest**

"If the Notes have not been called and the closing level of each Underlying on any Review Date is greater than or equal to the Interest Barrier, you will receive on the applicable Interest Payment Date for each $1,000 principal amount note a Contingent Interest Payment equal to between $5.5333 and $7.50 (equivalent to an interest rate of between 7.00% and 9.00% per annum, payable at a rate of between 0.593333% and 0.793333% per month)."

**The hypothetical payments on the notes shown above apply only if you hold the notes for their entire term or until automatically called. These hypotheticals do not reflect fees or expenses that would be associated with any sale in the secondary market. If these fees and expenses were included, the hypothetical payments shown above would likely be lower."
Selected Risks

- Your investment in the notes may result in a loss. The notes do not guarantee any return of principal.
- The notes do not guarantee the payment of interest and may not pay interest at all.
- Payment on the notes at maturity is subject to the credit risk of J.P. Morgan Chase Financial Company LLC and JPMorgan Chase & Co. Therefore the value of the notes prior to maturity will be subject to changes in the market view of the creditworthiness of JPMorgan Chase Financial Company LLC or JPMorgan Chase & Co.
- You are exposed to the risks of the decline in the level of each Underlying.
- Your payment at maturity will be determined by the Lead Performing Underlying.
- The appreciation potential of the notes is limited to the sum of any contingent interest payments that may be paid over the term of the notes, regardless of any appreciation of any Underlying, which may be significant.
- The benefit provided by the Trigger Level may terminate on the Final Review Date.
- If the notes have not been automatically called and any Underlying is below its Trigger Level, you will lose 1% of your principal for every 1% the Final Level of the Lead Performing Underlying is less than its initial Level.
- The call feature may force a potential early exit. There is no guarantee you will be able to reinvest the proceeds at a comparable interest rate for a similar level of risk.
- No dividend payments, voting rights, or ownership rights with the equity securities included in each Underlying.
- JPMorgan Chase & Co. is currently one of the companies that make up the S&P 500 index and the Dow Jones Industrial Average.
- The notes are subject to the risks associated with small capitalization companies.

Selected Risks (continued)

- JPM’s estimated value of the notes will be determined by reference to an internal funding rate.
- JPM’s estimated value of the notes does not represent future values and may differ from others’ estimates.
- The value of the notes, which may be reflected in customer account statements, may be higher than the then current estimated value of the notes for a limited time period.
- Lack of liquidity. J.P. Morgan Securities LLC (who we refer to as JPMIS), intends to offer to purchase the notes in the secondary market but is not required to do so. The price, if any, at which JPMIS will be willing to purchase notes from you in the secondary market, if at all, may result in a significant loss of your principal.
- Potential conflicts. We and our affiliates play a variety of roles in connection with the issuance of notes, including acting as calculation agent and hedging our obligations under the notes, and making the assumptions used to determine the pricing of the notes and the estimated value of the notes when the terms of the notes are set. It is possible that such hedging or other trading activities of J.P. Morgan or its affiliates could result in substantial returns for J.P. Morgan and its affiliates while the value of the notes decline.
- The tax consequences of the notes may be uncertain. You should consult your tax adviser regarding the U.S. federal income tax consequences of an investment in the notes.
- The risks identified above are not exhaustive. Please see “Risk Factors” in the applicable product supplement and “Selected Risk Considerations” in the applicable preliminary pricing supplement for additional information.

The risks identified above are not exhaustive. Please see “Risk Factors” in the prospectus supplement and the applicable product supplement and “Selected Risk Considerations” in the applicable preliminary pricing supplement for additional information.
