Notes on non-GAAP financial measures

- 1. In addition to analyzing the Firm's results on a reported basis, management reviews Firmwide results, including the overhead ratio, on a "managed" basis; these Firmwide managed basis results are non-GAAP financial measures. The Firm also reviews the results of the lines of business on a managed basis. The Firm's definition of managed basis starts, in each case, with the reported U.S. GAAP results and includes certain reclassifications to present total net revenue for the Firm and each of the reportable business segments on a fully taxable-equivalent basis. Accordingly, revenue form investments that receive tax credits and tax-exempt securities is presented in the managed results on a basis comparable to taxable investments and securities. These financial measures allow management to assess the comparability of revenue from views there adjustments have no impact on the incens of reported by GAAP finance and the revenue from views and base or parable wave no impact on the incens of reported by Term as a whole or by the lines of business. For a reconciliation of the Firm's results from a reported to managed basis, refer to page 7 of the Earnings Release Financial Supplement.
- 2. In addition to reviewing net interest income ("NII") and noninterest revenue (NIIF") on a managed basis, managed basis, management also reviews these metrics excluding OIB Markets. CIB Markets consists of Fixed Income Markets and Equity Markets. These metrics, which exclude CIB Markets, are non-GAAP financial measures. Management reviews these metrics to assess the performance of the Firm's lending, investing (including asset-liability management) and deposit-raising activities, without the volatility arising from CIB Markets. In addition, management also assesses CIB Markets business performance on a total revenue basis as offsets may occur across revenue lines. Management believes that discuss that discusses provides investors and analysts with other measures by which to analyze the revenue ternds of the Firm. For the full year 2019, NII acc. CIB Markets accluated by excluding CIB Markets business performance on a total S3. Bf orm managed NII and S7. Bf or managed NII and NIR include \$53.11 mm and \$2.58 of fully taxable-cuivalent, srespective). For all other periods presented, refer to the reconciliation of NII and NIR include \$53.11 mm and \$2.58 of fully taxable-cuivalent stress reviews. For all other periods presented, refer to the reconciliation of NII and NIR include \$52.81 mm and \$2.58 of fully taxable-cuivalent stresses. For all other periods presented, refer to the reconciliation of NII and NIR from reported to excluding CIB Markets to periods presented, refer to the reconciliation of NII and NIR from reported to excluding CIB Markets on page 28 of the Earnings Release Financial Supplement
- 3. Net income, earnings per share and return on tangible common equity ("ROTCE") excluding the Firmwide net credit reserve release are non-GAAP financial measures. The net credit reserve release represents the portion of the provision for credit losses sattributable to the change in allowance for credit losses. Excluding the net credit reserve release in the fourth quarter of 2201 resulted in a decrease of 14.14 (after tax) to exported net income from \$10.48 to 50.901; a decrease of 15.40 to 50.901; a decrease of 15.40 to 75.40 to 75.401; a decrease of 15.40 to 75.400; a decrease of 15.400; a decrease of decrease of 15.400; a decrease of 15.400; a decrease of 15
- Transible common equity ("TCE"), ROTCE and tangible book value per share ("TBVPS"), are each non-GAAP financial measures. TCE represents the Firm's common stockholders' equity (i.e., total stocholders' equity less preferred stock) less goodwill and identifiable intrajible assets (other than mortgage servicing rights), net of related deferred tar liable. For a reconciliation from common stockholders' equity files. For a reconciliation from common stockholders' equity and the reconciliation from common stockholders' equity and the reconciliation from common stockholders' equity and the reconciliation from common stockholders' equity is a second stock holder second stock holders' equity and becember 31, 2020, respectively. TCE, ROTCE and TBVPS are utilized by the Film, as well as investors and analysts, in assessing the Firm's use of equity
- 5. Adjusted expense and adjusted overhead ratio are each non-GAAP financial measures. Adjusted expense excludes Firmwide legal expense of \$137mm, \$76mm and \$276mm for the three months ended December 31, 2021, September 30, 2021 and December 31, 2020, respectively, and \$426mm, \$1.18 and \$239mm for the full year 2021, 2020 and 2019, respectively. The adjusted overhead ratio measures the Firmi's adjusted expense as a percentage of adjusted managed net revenue. Management believes this information helps investors understand the effect of these items on reported results and provides an alternate presentation of the Firm's performance
- Corporate & Investment Bank ("CIB") calculates the ratio of the allowance for Ioan Iosses to end-of-period Ioans ("ALUEOP") excluding the impact of consolidated Firm-administered multi-seller conduits and trade finance Ioans, to provide a more meaningful assessment of CIB's allowance coverage ratio
