Preliminary Pricing Supplement: http://sp.jpmorgan.com/document/cusip/48132HR87/doctype/Product_Termsheet/document.pdf

Payment at Maturity:

If a Trigger Event has not occurred, your payment at maturity per \$1,000 principal amount note will be calculated as follows:

$$\$1,000 + (\$1,000 \times \text{Contingent Digital Return})$$

If (i) a Trigger Event has occurred and (ii) the Final Value of each Index is greater than or equal to its Initial Value, you will receive the principal amount of your notes at maturity.

If (i) a Trigger Event has occurred and (ii) the Final Value of either Index is less than its Initial Value, your payment at maturity per \$1,000 principal amount note will be calculated as follows:

$$\$1,000 + (\$1,000 \times \text{Lesser Performing Index Return})$$

If (i) a Trigger Event has occurred and (ii) the Final Value of either Index is less than its Initial Value, you will lose some or all of your principal amount at maturity

For more information about the estimated value of the notes, which likely will be lower than the price you paid for the notes, please see the hyperlink above.

Any payment on the notes is subject to the credit risk of JPMorgan Chase Financial Company LLC, as issuer of the notes and the credit risk of JPMorgan Chase & Co., as guarantor of the notes.

Hypothetical Total Returns**

Selected Risks

- Your investment in the notes may result in a loss. The Notes do not guarantee return of your principal at maturity.
- Your maximum gain on the notes is limited to the contingent digital return regardless of appreciation in the value of either index, which may be significant.
- Payment on the notes at maturity is subject to the credit risk of JPMorgan Financial Company LLC and JPMorgan Chase & Co. Therefore the value of the notes prior to maturity will be subject to changes in the market's view of the creditworthiness of JPMorgan Financial or JPMorgan Chase & Co.
- Your ability to receive the contingent digital return may terminate on any day during the monitoring period. If, on any day during the Monitoring Period, the closing level of either Index is less than its Trigger Value (i.e., a Trigger Event occurs), you will not be entitled to receive the Contingent Digital Return at maturity. Under these circumstances, you may lose some or all of your principal amount at maturity.
- No interest or dividend payments, voting rights, or ownership rights with the securities included in the Index.
- As a finance subsidiary, JPMorgan Financial Company LLC has no independent operations and has limited assets.
- You are exposed to the risks associated with small capitalization companies.
- You are exposed to the risk of decline in the level of each Index.
- Your payment at maturity will be determined by the lesser performing index.

Selected Risks (continued)

- The estimated value of the notes will be lower than the original issue price (price to public) of the notes.
- The estimated value of the notes is determined by reference to an internal funding rate.
- The estimated value of the notes does not represent future values and may differ from others' estimates.
- The value of the notes, which may be reflected in customer account statements, may be higher than the then current estimated value of the notes for a limited time period.
- Lack of liquidity: J.P. Morgan Securities LLC, acting as agent for the Issuer (and who we refer to as JPMS), intends to offer to purchase the notes in the secondary market but is not required to do so. The price, if any, at which JPMS will be willing to purchase notes from you in the secondary market, if at all, may result in a significant loss of your principal.
- Potential conflicts: We and our affiliates play a variety of roles in connection with the issuance of notes, including acting as calculation agent and hedging our obligations under the notes, and making the assumptions used to determine the pricing of the notes and the estimated value of the notes when the terms of the notes are set. It is possible that such hedging or other trading activities of J.P. Morgan or its affiliates could result in substantial returns for J.P. Morgan and its affiliates while the value of the notes decline.
- The tax consequences of the notes may be uncertain. You should consult your tax adviser regarding the U.S. federal income tax consequences of an investment in the notes.

The risks identified above are not exhaustive. Please see "Risk Factors" in the applicable product supplement and "Selected Risk Considerations" to the applicable preliminary pricing supplement for additional information.
